Key Facts

- 2.0-liter, 4-cylinder BOXER engine: 268-hp and 258 lb-ft peak torque.
- Standard 6-speed manual transmission; optional Sport Lineartronic CVT with manual mode and steering wheel paddle shift switches.
- Standard Active Torque Vectoring, an enhancement of the Vehicle Dynamics Control (VDC) system.
- WRX Premium and Limited models with Sport CVT feature Subaru Intelligent Drive (SI-DRIVE), a powertrain performance management system that allows the driver to tailor the vehicle's driving characteristics by choosing from among three selectable modes – "Intelligent," "Sport" and "Sport Sharp".
- Ring-shaped Reinforcement Frame body structure.
- Body structure makes extensive use of high-tensile steel and features special stiffening elements at key locations.
- Sport-tuned suspension.

- Aluminum hood with integral scoop to provide fresh air to intercooler.

Symmetrical All-Wheel Drive

- 6-speed manual transmission: Continuous AWD version uses a viscous coupling locking center differential that nominally distributes torque 50:50 front to rear. Should slippage occur, system transfers more torque to the wheels with the best traction.
- Sport Lineartronic CVT: Variable Torque Distribution (VTD) version uses a planetary gear-type center differential and an electronically controlled hydraulic transfer clutch to manage torque distribution between the front and rear wheels. VTD nominally splits torque 45:55, with the rearward bias contributing to handling agility. The system continually optimizes torque distribution in response to driving conditions and input from steering wheel angle, yaw and lateral g-force sensors.
